* Polyester is a strong and durable fabric, self-ironing. It is also a very light fabric.
 ** Nylon is elastic and is easy to care. Highly resistant to abrasion. Shiny, light, comfortable and soft.
 *** Armortex is a combination of nylon and polyester covered of an innovative layer which gives a very high resistance to abrasion. This fabric is perfect for forestry environments rounded by brambles and bushes.

YUKON CHAINSAW PROTECTIVE BOOTS

KWF STANDARD CERTIFIED
Independent test institute in Germany.

12 selected professional loggers tested Oregon chainsaw boots during 4 months and evaluated :

1. Durability :
 - Resistance of leather, insole and outsole, seams, eyelets and hooks, bootlaces.
 - Glue resistance between leather and outsole.
 - Stability of heel area.
 - Water resistance.
2. Boots maintenance during the test period : instruction manual.
3. Shoe size fitting.
4. Comfort and light weight.
5. Cold and heat isolation.
6. Resistance to wet conditions (water penetration and absorption) and snow.
